ASX ANNOUNCEMENT

IMEXHS receives CE¹ Certification for HIRUKO™

IMEXHS Limited (“IMEXHS” or “the Company”) (ASX: IME) today announces that it has received Class I Medical Device Conformité Européenne (CE) Mark registration for its HIRUKO Essential software suite from the Ministry of Health in Spain.

This certification means that IMEXHS can now sell its leading HIRUKO platform in Europe, one of the world’s largest RIS & PACS markets which is projected to be worth approximately US\$570 million by 2023.

IMEXHS Co-founder and CEO Dr German Arango said: “The CE certification is another important milestone for the Company as we continue to enter new markets. In the past year, we have expanded into the US and Brazil following the certification of our fully cloud based HIRUKO platform in those regions. We will now enter the EU, initially focusing on the Iberian Peninsula and the mature markets of Spain and Portugal. The COVID-19 pandemic has accelerated the adoption of telemedicine and generated significant demand for our innovative teleradiology solution. IMEXHS’s medical imaging technology will be available via our local distributor and partner, HT Medica.”

Authorised for release by the board of IMEXHS Limited.
