

ImExHS signs new distribution agreement for two additional countries in Central America

HIGHLIGHTS

- ImExHS signs new distribution agreement with **Rivas Opstaele**
- Signifies expansion into two new markets in Nicaragua and Honduras
- Rivas Opstaele has over 70 years' experience as a medical equipment supplier in the region

Sydney — 13 February 2019 —ImExHS Limited [ASX:IME] today announces that it has signed a new distribution agreement with Almacenes Industrias Rivas Opstaele S.A. (**Rivas Opstaele**), a leading medical equipment supplier in Honduras and Nicaragua.

This agreement adds two additional countries to the ImExHS's geographic reach.

Rivas Opstaele has been operating in Nicaragua for over 70 years and provides high quality sales and support services for medical equipment in Nicaragua and Honduras. Rivas Opstaele is one of the biggest distributors in these countries and has a wide range of brands such as Agfa, Edwards, Guerbet, Medtronic, Pentax and Philips, provided to public and private institutions in the region.

The distribution agreement contains ImExHS's standard terms and conditions.

Dr German Arango, ImExHS CEO, Said, "we are now seeing greater momentum in Central America and we look forward to working with Rivas Opstaele to bring the benefits of Hiruko's leading imaging technology solutions to their clients in Nicaragua and Honduras."

ABOUT IMEXHS

ImExHS Limited [ASX: IME] is a leading imaging Software as a Service (SaaS) and ancillary service provider in Latin America. Founded in 2012, ImExHS is known for its innovation in the Latin American imaging services market, offering flexible and scalable imaging solutions via its Hiruko branded suite of solutions for next generation Picture Archiving and Communications System (PACS) and integrated Radiology Imaging System (RIS). The Hiruko system is completely cloud based, vendor neutral and zero footprint with no need for installed software. Enhanced features such as a fully web-based voice recognition option and a zero footprint DICOM viewer are some of its advanced features. In addition to PACS and RIS, imaging technology and management systems can be provided on a Platform as a Service (PaaS) basis when packaged with equipment. The ImExHS products are designed to increase productivity and save money for the users, with a scalable platform that is configured for the future, while enhancing patient outcomes.
