

ImExHS signs distribution agreement in Uruguay

HIGHLIGHTS

- ImExHS signs new distribution agreement with Akoluz S.A.
- Akoluz is the leader in the medical imaging market in Uruguay.

Sydney — 21 March 2019 —ImExHS Limited [ASX:IME] today announces that it has signed a new non-exclusive distribution agreement with Akoluz S.A., which has more than 20 years of experience in the Medical-Hospital sector in Uruguay and is the recognised leader in imaging equipment and services.

This agreement continues ImExHS's market development in the southern countries of Latin America and now offers a first opportunity to expand its presence into Uruguay.

In recent years Akoluz has become synonymous with quality and service thanks to its renowned Technical Service Department. Founded on the belief that the quality of the after-sales service in the medical industry is becoming increasingly important given the importance of the functions performed.

In announcing the new partnership, Andres Vanegas, ImExHS Chief Sales Officer, said, "with this new alliance, ImExHS aims to penetrate a respected market, with Akoluz's reputation for service quality a strong match with ImExHS's ability to tailor innovative solutions based on the technical configurations and workflows of our customers."

The distribution agreement is on standard terms.

ABOUT IMEXHS

ImExHS Limited [ASX: IME] is a leading imaging Software as a Service (SaaS) and ancillary service provider in Latin America. Founded in 2012, ImExHS is known for its innovation in the Latin American imaging services market, offering flexible and scalable imaging solutions via its Hiruko branded suite of solutions for next generation Picture Archiving and Communications System (PACS) and integrated Radiology Imaging System (RIS). The Hiruko system is completely cloud based, vendor neutral and zero footprint with no need for installed software. Enhanced features such as a fully web-based voice recognition option and a zero footprint DICOM viewer are some of its advanced features. In addition to PACS and RIS, imaging technology and management systems can be provided on a Platform as a Service (PaaS) basis when packaged with equipment. The ImExHS products are designed to increase productivity and save money for the users, with a scalable platform that is configured for the future, while enhancing patient outcomes. ABOUT AKOLUZ

Akoluz S.A. has more than 20 years of experience in the Medical-Hospital Sector in Uruguay, and is currently the benchmark in quality and technology in the sector. From its inception, Akoluz was created and designed as a company with a clear focus on technology, which would serve to respond to an increasingly technological medical sector with constant innovation needs. Akoluz is the leader in Uruguay in the Imaging Sector, representing and distributing the imaging equipment and solutions of Carestream Health.

Akoluz has become the benchmark for the Sector thanks to the quality of the equipment as well as its After Sales Technical Service Department, which serves more than 300 installations and systems throughout the country.
