

ImExHS announces an important new SaaS client in Ecuador

HIGHLIGHTS

- ImExHS announces a new SaaS client, Clínica Los Valles, which is a leading reference and teaching hospital in Ecuador
- ImExHS continues its expansion in Latin America
- Five-year contract worth over AUD\$200,000

Bogota — 29 January 2019 —ImExHS Limited [ASX:IME] today announces an important new client.

ImExHS, through its Ecuadorian distributor, Servicios Telemedicina Diagnostico Remoto Mobitelemed Sociedad Anónima (“Mobitelemed”), today announces a new SaaS client, Clínica Los Valles (“Los Valles”). Mobitelemed SA is a service company of tele-radiology, tele-diagnostics, and computer services and provides customized solutions for Public and Private Hospitals and Clinics in Ecuador.

Los Valles, operating through Hospital de los Valles in Quito, is one of the most important private hospitals in Ecuador and is a leading reference and teaching hospital - part of the educational offering of the Universidad San Francisco de Quito, Ecuador’s leading private university.

Los Valles has chosen Hiruko’s RIS-PACS solution on a five-year contract worth more than AUD\$200,000 for services to both its two fixed locations and its mobile imaging service.

Hiruko’s small web-based deployment, which allows a responsive service over wireless connections when compared to traditional providers, was especially important to Los Valles for their mobile service.

Mr Andres Venegas, ImExHS Chief Sales Officer said, “Los Valles chose Hiruko because of the convenience of the SaaS model and also its next generation web capabilities allowing Hiruko to be easily deployed across its fixed and mobile operations.”

Dr German Arango, ImExHS CEO, announced “we are very excited to have been chosen to provide Hiruko to Las Valles. As an important teaching hospital, this will bring Hiruko to the next generation of radiologists in Ecuador.”

ABOUT IMEXHS

ImExHS Limited [ASX: IME] is a leading imaging Software as a Service (SaaS) and ancillary service provider in Latin America. Founded in 2012, ImExHS has become one of the leaders in the Latin American imaging services market, offering flexible and scalable imaging solutions via its Hiruko branded suite of solutions for next generation Picture Archiving and Communications System (PACS) and integrated Radiology Imaging System (RIS). The Hiruko system is completely cloud based, vendor neutral and zero footprint with no need for installed software. Enhanced features such as a fully web-based voice recognition option and a zero footprint DICOM viewer are some of its advanced features. In addition to PACS and RIS, imaging technology and management systems can be provided on a Platform as a Service (PaaS) basis. The ImExHS products are designed to save money for the users, with a scalable platform that is configured for the future, while enhancing patient outcomes. Please see www.imexhs.com
